n o Collection Diamantatura

Diamantatura è un'azione che fa risaltare la maniglia con luce viva e fa emergere bellezza e lucentezza e alla fine risulterà brillante. Viene eseguita sulla superficie con un percussore meccanico, chiamato diamantatore, che colpendo il metallo, crea una texture che simula la presenza di diamanti incassati.

Diamantatura is a new collection born from the idea of making the handle shine by its own light.

We can accomplish this by hitting the metal with a diamond tip, this allow us to create a texture that simulate the presence of set diamonds.

model **doroty**

La ceramica diventa "glamour" e ricercata nella nuova linea Ferretto Doroty. Il design leggero e floreale della maniglia è impreziosito dall'intarsio in ceramica, ovale o rotondo, e da una nuova serie di decori in oro, platino e in blu provenzale.

Ogni decoro così come le finiture sono intercambiabili a scelta e gusto del Cliente. E' possibile inoltre realizzare decori personalizzati su richiesta.

Ceramic becomes "glamour" and sought in the new line ferretto doroty. The light and floreal design of this handle is embellished by an oval or round ceramic inlay, and by a new serie of gold, platinum and blue provençal decorations. Each decoration, as well as the finishing can be interchanged according to the customer tastes. It is also possible to realize personalized decorations.
